CDM 9789					+	\$6.00	300,000		✓	Association of Independent Producers of Renewable Energy
CDM 2140					+	\$1.00	75,000		✓	Water Supply Development Project
CDM 3378					+	\$2.10	50,000		✓	Small Scale Renewable Energy Development Project
CDM 8101					+	\$1.40	100,000		✓	Small Scale Renewable Energy Development Project

WHY THE A6 TRACKER?

Navigating carbon markets under Article 6 of the Paris Agreement can be complex. **The CACE A6 Country Readiness Tracker on Emsurge** brings clarity — helping governments, investors, buyers and project developers assess national readiness and feasibility of carbon opportunities at a glance.

We take a deep-dive into the countries advancing the fastest with Article 6 compliance.

WHAT IT DOES

The Tracker evaluates a country's preparedness to generate or host high integrity carbon credits under Article 6 or CORSIA.

- + Measures progress across regulatory, technical, and institutional readiness
- + Helps buyers identify credible host countries for the export of A6 carbon credits
- + Flags gaps and opportunities for capacity building and investment
- + Provides a one stop shop for information on which countries have frameworks, the LoAs with Initial Reports exist, and which countries are most likely to deliver CORSIA eligible credits
- + Integrated with the CACE ITMO auction platform, providing participants with confidence in the credits they buy

THREE PILLARS OF READINESS

Article 6 Readiness Status

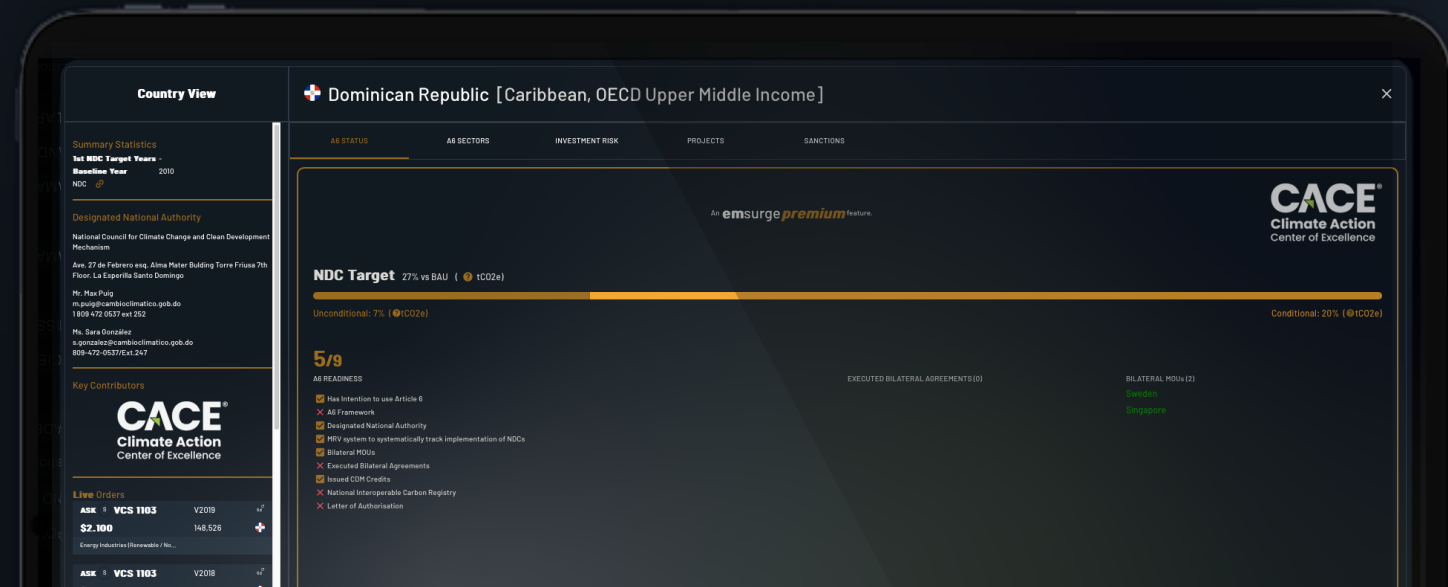

Historical action and current the progress being made on MRV systems, Letters of Authorisation, and more.

Article 6 Framework

National laws, institutional mandates, approval processes, and registry systems.

NDC Alignment

Ensures carbon markets support, not undermine national climate targets.

KEY FEATURES

- + Country-by-country data
- + Links to policy documents
- + +40 metrics assessed per country
- + Continuous updates
- + Based on official UNFCCC submissions
+ national sources

WHY THE A6 TRACKER?

- + Governments – Benchmark readiness, strengthen frameworks
- + Developers – Identify promising host countries and reduce risks
- + Investors & Buyers – Prioritise low risk markets with transparency & integrity
- + Researchers & Think Tanks – Inform analysis and policy

EXAMPLE INDICATORS

- + Has the country submitted its first Biennial Transparency Report?
- + Has it developed an official Article 6 Framework? Is it aligned with UNFCCC requirements for Article 6 participation?
- + Are Letters of Authorisation (LoAs) being issued?
- + Is there a registry in place to prevent double counting?
- + Does the country have a Designated National Authority and the legal and technical capacity to authorise corresponding adjustments?

+
TRANSPARENT, CONSISTENT,
AND FORWARD-LOOKING.
**THE ARTICLE 6 READINESS
TRACKER** IS YOUR GO-TO TOOL
FOR BUILDING TRUST &
UNLOCKING CLIMATE FINANCE.

TRACK READINESS. UNLOCK MARKETS.

READY TO EXPLORE

Designated National Authorities (DNAs) under Article 6 can enjoy free pilot access for a limited time. Access the Tracker and request your country's profile at:
